The Aqua Technics Pools Story

The purchase of your very own swimming pool is an exciting time! A cool-off in summer, recreation for the kids and poolside barbecues have infinite appeal, yet with so many companies to choose from, how can you be sure you are getting the very best pool for your investment?

LOOK NO FURTHER

Aqua Technics Pools has been manufacturing award-winning fibreglass pools since 1976. Right from day one, we knew that if we wanted to be the leading swimming pool manufacturer in Australia, we also had to lead the way with product development and technology. So we began burning the midnight oil researching new manufacturing methods and materials.

AND WE HAVE BEEN EVER SINCE

That's why Aqua Technics Pools has the best range of technologically advanced, award-winning swimming pools in Australia. You can rest assured your pool has been built to Australian Standard 1838 under license number BMP 520101, includes an Extended Lifetime Structural Warranty and has award-winning Pool ColourGuard® protection, with brilliant colour and superior fade resistance.

We stand behind our pools so you can take the plunge with confidence, knowing that you have invested in the very best swimming pool available – a pool built stronger to last longer from the team at Aqua Technics Pools.

WHAT SETS US APART from the rest

FADE RESISTANT

Aqua Technics pools have patented Pool ColourGuard® surface technology, which resists the effects of UV rays and chemicals, offering superior fade-resistant protection.

QUALITY ASSURED

Certified to build to AS/NZS 1838 under license BMP 520101. We are measured and tested by an authorised, independent auditor. Anyone can say they build to the Standard. For your peace of mind always ask for a license number. We also comply to the AS/NZS ISO 9001 Quality System.

LIFETIME WARRANTIES

Pool ColourGuard® Lifetime Interior Surface Guarantee and Extended Lifetime Structural Warranty - our commitment to providing extended warranties above those standard in the SPASA contract.

ANTI-MICROBIAL PROTECTION

Microtech Anti-Microbial Pool Protection prevents surface algae growth, making it exceptionally hygienic and safer for your family. It's 100% safe and gentle on the human body.

PRECISION MOULDS

New designs are built to exacting tolerances. The edge beams are true, the shapes geometrically perfect and the surface finish is without peer.

SUPERIOR STRENGTH

Full sized structural ribs, fully supported steps and bench seating and a wider edge beam mean the strength is built into the pool. New high strength fibreglass produces a stronger, stiffer pool - up to 20% stronger.

SUPERIOR MATERIALS

All pools are manufactured using high performance, corrosion resistant, eco-friendly fibreglass with improved strength and stiffness. Our onsite gelcoat manufacturing facility means daily batching of materials for a better product. Only specialty materials are used - no general purpose products.

Purpose Built Manufacturing Facility

Our world-class production facility has been purpose-built for the manufacture of fibreglass swimming pools. Here we can build a technologically superior product of the highest quality.

Each of our pools is manufactured in accordance with a Quality Management System as per the requirements of International Standard ISO 9001 and supplied to comply with AS/NZS 1838:1994 under license number BMP 520101. Obtaining this accreditation means we are measured and tested by an authorised, independent auditor and is not easily achieved. Any pool builder can say they build to, or better than, the Australian Standard. For your peace of mind, always ask for a license number.

The strength of our pools is backed by an Extended Lifetime Structural Warranty and we are the only swimming pool company in the world offering a Lifetime Interior Surface Guarantee*.

OUR PROMISE TO YOU, THERE SIMPLY IS NO BETTER SWIMMING POOL.

*Conditions apply

Why we only build pools with 200mm edge beams

The design of the 200mm edge beam means that the strength is engineered into the pool. Your pool is built stronger to last longer. We are externally audited every year to Product Certification AS1838. Make sure your builder is licensed to build to Australian Standards.

Built Stronger to Last **LONGER**

Along with our state-of-the-art, purpose built manufacturing facility, we can proudly boast to having our own in-house raw materials production division. This allows us to freshly batch our raw materials on a daily basis, which is extremely important in order to produce a superior quality product.

We have been building fibreglass pools for over 40 years so you can trust we have the knowledge and expertise to build the best swimming pool available today. As leaders in pool technology and development, we ensure that every Aqua Technics pool is superior in every way.

We have been a family owned and operated company since we first began. Many happy memories are created in your backyard pool so it's only natural that a successful swimming pool company should be a family business. We pride ourselves on having the best range of designs, colours and surface finishes. Whether you are looking for a design for fun, relaxation, exercise or all three, we have the perfect pool for you.

The greatest single advancement in
fibreglass pools in over 40 years

Only Aqua Technics can offer you a patented surface protection system for fibreglass pools that resists the effects of ultra violet rays and chemical attack. Backed by a Lifetime Interior Surface Guarantee, it's like sunscreen for your pool, protecting it from colour loss and weathering. Incorporating a specialised dual coat system as part of the manufacturing process, two layers are merged to provide extraordinary surface protection.

With a brilliant, high gloss finish that lasts year after year, your pool will maintain its beautiful appearance thanks to the innovative and unique Pool ColourGuard® technology. We dare you to compare.

Patented Dual Coat System - Every Layer Matters

- 1** Patented Clear Resin - chemically resistant, like sunscreen for your pool
- 2** Patented Colour Layer - colours that last longer and act as a corrosion barrier to prevent osmosis
- 3** First Structural Layer and Second Chemical Resistant Layer - double protection
- 4** Second Structural Laminate with unique materials that increase the strength of the laminate
- 5** Third Structural and Reinforced Formers - for increased strength and stiffness
- 6** Exterior Waterproof Membrane and the final layer

ADVANCED PATENTED TECHNOLOGY IN 27 COUNTRIES AROUND THE WORLD

When only the best will do - the world's
first fade-resistant surface protection
system for fibreglass pools

Every effort has been made to represent the true colours, however variations may occur due to the printing process. We recommend viewing colour samples before making your final selection.

Resort **SERIES**

Enjoy an indulgent pool and spa combination in your own backyard with the Resort Series.

Saint-Remy - PCG Twilight

Resort Series Features
